MANAGEMENT DISCUSSION & ANALYSIS REPORT

(a) Overview of operations:

- The Company's fertilizer business viz. Single Superphosphate (SSP) could not be continued on its own inter-alia, due to strained liquidity and shortage of Working Capital. However the Company continued its SSP operations on moderate scale at its plant at Khemli, Udaipur on toll manufacturing/conversion basis, since the existing toll manufacturer is not willing to continue the arrangement of manufacturing SSP on conversion basis, the Company is exploring options of similar arrangement with other toll manufacturers. There is no turnover of SSP fertilizers during the current financial year ended 31st March, 2014 and previous financial year ended 31st March, 2013. The Company is exploring options to remain in SSP fertiliser business in spite of the huge working capital requirements of the SSP business and the present uncertain Government policies
- The turnover of Commodity Chemicals during the current Financial Year ended 31st March, 2014 was marginally higher at Rs 30.03 crores as compared to the turnover of Rs. 29.73 crores during the previous Financial Year. The turnover of Specialty Chemicals during the current Financial Year ended 31st March, 2014 was Rs. 63.17 crores as compared to Rs.44.78 crores in the previous year. The Export turnover of the Company during the current Financial Year ended 31st March, 2014 was Rs. 46.66 crores compared to Rs.31.70 crores for the previous Financial Year. Your Company continues to make efforts to develop new markets and customers.

(b) Prospects in the Industry :

Fertilisers

The SSP Fertiliser Industry continues under the stresses and strains of the huge working capital requirement arising mainly out of the delays in receipt of the subsidy amounts from the Central Government and other related procedural issues. While the Company is exploring options to remain in SSP fertiliser business, the company is also looking at options of entering into brand licensing arrangement of Company's " SHIP Brand " of SSP Fertiliser, on a moderate scale initially and has already entered into the Brand licensing arrangements with few parties on experimental basis. Based on this experience, it will be the Company's endeavours to enlarge the scope of the Brand Licensing arrangement by expanding the geographical coverage based on Company's wide distribution network and strict monitoring of the quality of SSP manufactured by the Licensees and thus develop this as a profitable business model.

Chemicals

The rate of change in the chemical industry is accelerating. Some products which were specialties a few years ago face competition with the entry of new players and become commoditized. Manufacturers therefore need to adapt to this change by constantly innovating, expanding the product range, and building long term alliances with key customers.

Your Company has made significant progress in terms of financial and operational performance this year. The focus on specialty chemicals has started yielding results, not only in the domestic market, but in international markets as well, the component of specialty chemicals business being

NINETY THIRD ANNUAL REPORT 2013-14

over 65% of the total sales. While the bulk chemicals are an intrinsic part of our operations and are essential for the growth of the specialty chemical segment, the profitability of the bulk/commodity chemical is limited due to continuing competition and logistical restrictions. Therefore in case of bulk/commodity chemicals, our focus is on cost reduction, efficient sourcing, overall supply chain optimization and developing value added/ pure grades of bulk/ commodity chemicals which would have a niche domestic market.

In the specialty chemicals business, your Company has commercialized two products which had been developed earlier by the Company's in house Research and Development team. Trial deliveries were made this year which have met with the customer requirement. Management expects significant benefit from these products during the financial year 2014-15 and thereafter. It has been the policy of the Management to strengthen the Marketing and R&D teams and there by enlarge the customer base and offer new products regularly and on ongoing basis.

The Company expects to increase the capacity utilization of its Chemical Plants at Roha, by carrying out some internal financial and business restructuring and improving the availability of working capital finances. Your Company is setting up flexible manufacturing facilities termed "Multipurpose Plants" which can be utilized for several different products, the transition between products being rapid, the new products can be commercialized at short notice. The management expects certain additional benefits from the multipurpose manufacturing plants. These innovative initiatives of the Management are expected to reflect in developing of the new Specialty Chemicals and new varieties of existing Specialty Chemicals with better margins in coming years.

AUDITORS' OBSERVATIONS

In respect of the Auditors' observation (in quotes):

"The Company had recognized net deferred tax asset in earlier years aggregating to Rs.2654.15 lacs till 31st March, 2009 considering unabsorbed loss up to 31st March, 2008 and unabsorbed depreciation up to 31st March, 2009. For the subsequent financial periods, further net deferred tax asset has not been recognized in view of management's perceptions and reason detailed in Note No.V(c). We are not in a position to opine on the net deferred tax asset recognized till date as regards its ultimate realization since the virtual certainty of the available sufficient future taxable income, as required by Accounting Standard 22 i.e. 'Accounting for taxes on income' notified pursuant to Companies (Accounting Standards) Rules, 2006, could not be substantiated.

Had the Company not recognized the said net deferred tax asset aggregating to Rs.2654.15 Lacs, the Accumulated losses as at the end of the year would have been higher by Rs.2654.15 Lacs”.

The managements perception and reasons are detailed in Note no. V-(c), and the same is reproduced here below:

Deferred Tax Assets (Net)

The Company's export business over the last three years has been growing at an impressive rate of 50%. This has been possible due to appropriate marketing efforts coupled with quality consciousness on the part of the company. The focused R & D activity to identify and develop relevant products meeting high quality standards has always remained vital to the company's business, and efforts are undertaken to spread this message across the customer base both abroad as well as domestic. The company is confident of improving the current growth rate substantially in overseas business in addition to consolidating the domestic market both in Speciality and Bulk chemicals. In the near term, the company expects to achieve this objective by making use of the available unutilized capacity as well as building up additional capacity. The marketing team is also being strengthened. Consequently, there is virtual certainty of realization of "Deferred Tax asset" mainly resulting from unabsorbed depreciation and carried forward losses. Accordingly, the recognized "Deferred Tax Asset" of Rs. 2654.15 Lacs as at 31.03.2009, without any addition, is being carried forward.

The break-up of the Deferred Tax Liability / (Deferred Tax asset) as on 31.03.2014 and 31.03.2013, recognised by the Company in the books of account, is as follows :

Particulars	As at 31-03-2014 Rs. In Lacs	As at 31-03-2013 Rs. In Lacs
Deferred Tax Liabilities :		
Difference between book and tax depreciation	1611.05	1611.05
Others	221.90	221.90
Total	<u>1832.95</u>	<u>1832.95</u>
Deferred Tax Assets :		
Unabsorbed depreciation / Business loss	3610.68	3610.68
Others	876.42	876.42
Total	<u>4487.10</u>	<u>4487.10</u>
Net Deferred Tax Liabilities / (Deferred Tax Assets) :	<u>(2654.15)</u>	<u>(2654.15)</u>

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Basis for Opinion

The Company had recognized net deferred tax asset in earlier years aggregating to Rs.2654.15 lacs till 31st March, 2009 considering unabsorbed loss up to 31st March, 2008 and unabsorbed depreciation up to 31st March, 2009. For the subsequent financial periods, further net deferred tax asset has not been recognized in view of management's perceptions and reason detailed in Note No.V(c). We are not in a position to opine on the net deferred tax asset recognized till date as regards its ultimate realization since the virtual certainty of the available sufficient future taxable income, as required by Accounting Standard 22 i.e. 'Accounting for taxes on income' notified pursuant to Companies (Accounting Standards) Rules, 2006, could not be substantiated.

Had the Company not recognized the said net deferred tax asset aggregating to Rs.2654.15 Lacs, the Accumulated losses as at the end of the year would have been higher by Rs.2654.15 Lacs.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, *except for the effects of the matter described in the Basis for Qualified Opinion paragraph*, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- in the case of the Statement of Profit and Loss, of the Profit for the year ended on that date; and
- in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- As required by section 227(3) of the Act, we report that:
 - We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

 - On the basis of written representations received from the directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act.

V-(c) Deferred Tax Assets (Net)

The Company's export business over the last three years has been growing at an impressive rate of 50%. This has been possible due to appropriate marketing efforts coupled with quality consciousness on the part of the company. The focused R & D activity to identify and develop relevant products meeting high quality standards has always remained vital to the company's business, and efforts are undertaken to spread this message across the customer base both abroad as well as domestic. The company is confident of improving the current growth rate substantially in overseas business in addition to consolidating the domestic market both in Speciality and Bulk chemicals. In the near term, the company expects to achieve this objective by making use of the available unutilized capacity as well as building up additional capacity. NOTE : XIII

1. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Company follows the accrual basis of accounting.

Fixed Assets

Fixed Assets are stated at cost of acquisition or construction, including attributable interest & financial costs till such assets are ready for its intended use, less accumulated depreciation, impairment losses and specific grants received, if any.

Method of Depreciation

Depreciation on all Fixed Assets acquired upto 31.12.1981 is provided on Written Down Value method. Depreciation on all Fixed Assets acquired after 31.12.1981 is provided on Straight Line method.

From the year 1993-94, depreciation on all assets (except continuous process plant and machinery acquired between 01.01.1982 to 31.03.1993) has been provided at the rates specified in Schedule XIV to the Companies Act, 1956, as revised by the notification dated 16th December, 1993, issued by the Department of Company Affairs. In respect of continuous process plant and machinery acquired between 01.01.1982 to 31.03.1993, the specified period (during which the Plant and Machinery is to be depreciated) has been recalculated considering the depreciation already provided upto 31.03.1993 and depreciation from the year 1993-94 has been provided at the reworked rates, which are lower than Schedule XIV rates as per the option given in Guidance Note issued by the Institute of Chartered Accountants of India.

Depreciation on additions and deletions during the year is provided on pro-rata basis.

Cost of leasehold land is amortised over the period of lease.

Treatment of Expenditure during the Construction period

The expenditure incurred during the period of construction (including cost of trial runs, stores issued, expenses on labour allocated for such purpose) is debited to capital work-in-progress and on completion, the costs are allocated to the respective fixed assets. Interest on specific borrowings relating to acquisition of fixed assets is capitalised upto the date of commissioning.

Valuation of Inventories

Inventories and stores are valued at lower of cost and net realisable value. Cost of Raw materials is computed on an annual weighted average basis. In respect of finished goods / work-in-progress, cost is determined by taking into consideration all direct costs and systematic allocation of related fixed & variable overheads.

Investments

Long-term investments are carried at cost. However provision for diminution in value is made to recognise a decline other than temporary in the value of investments. Current investments are stated at costs or fair value whichever is lower.

Revenue

Revenue from Gross Sales include Processing Charges, Excise Duty, Freight on sale of finished goods. Domestic sales are recognised on despatch of products and are stated net of returns. Export sales are accounted on the basis of dates of Bill of Lading. For goods sent on consignment basis, revenue from sale is recognized upon its intimation by the consignment agents. Royalty income on account of usage of Company's Product Brand name is accounted for as per the agreed terms with the concerned manufacturers.

Taxation

Income Tax expense comprises of Current Tax and Deferred Tax charge or credit.

i) Current Tax :

A provision is made for the Current Tax based on Tax Liability computed in accordance with relevant provisions & tax rates as per the Income Tax Act, 1961.

ii) Deferred Tax :

The Deferred Tax charge or credit is recognised using prevailing enacted or substantively enacted tax rates. Where there are unabsorbed depreciation or carry forward losses, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Other deferred tax assets are recognised only to the extent there is reasonable certainty of realisation in future. Deferred tax assets / liabilities are reviewed as at each Balance Sheet date based on developments during the year and available case laws, to reassess realisation/liabilities.

Employees' Benefits

Contributions to the Company's Provident Fund, Family Pension Fund, Superannuation Fund and Gratuity Fund (based on actuarial valuation) are being charged to the Statement of Profit and Loss.

The Company has the scheme which enables employees to encash the accumulated privilege leave (upto stipulated limits) on retirement. The Company's liability in respect of this leave encashment scheme is determined on the basis of actuarial valuation and the same is charged to the Statement of Profit & Loss.

Foreign Currency Transactions

- (i) Monetary items of assets/liabilities denominated in foreign currency are translated at the exchange rate prevailing on the last day of the accounting year. In respect of items covered by forward exchange contracts, the premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract. Any profit or loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or expense for the year. Foreign currency transactions are accounted at the rate prevailing on the date of transaction.
- (ii) Non Monetary items of assets/liabilities which are carried in terms of historical cost determined in a foreign currency are reported using the exchange rate at the date of transaction.
- (iii) Gain or Loss arising out of translation / conversion is taken credit for or charged to the Statemnt of Profit and Loss.

Provisions / Contingencies

Provision is recognised when the Company has a present obligation as a result of past event, and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value & are determined based on best estimate of the expenditure required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimate. A contingent liability is disclosed unless the possibility of an outflow of resources embodying the economic benefit is remote.

Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/ external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its estimated recoverable amount. The recoverable amount is greater of the asset's net selling price and its value in use. In assessing the value in use, the estimated future cash flows are discounted to the present value using the weighted average cost of capital. After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.
