New Products

We have added the following Sulfones to our product portfolio which find wide range of applications, in various segments:

- ❖ Diphenyl Sulfone
- ❖ 4,4' - Dihydroxy Diphenyl Sulfone
- ❖ 3,3' - Dinitro Diphenyl Sulfone
- ❖ 3,3' - Diamino Diphenyl Sulfone

Market development, market seeding and approvals are in process, domestically and internationally.

Multi purpose plant – UNIT II has been commissioned, wherein Diethyl Ether and other new products will be manufactured.

Custom Manufacturing

The Dharamsi Morarji
Chemical Company
Limited

We have developed processes wherein risk of transporting hazardous chemicals like Chloro Sulphonic Acid, Oleum and Sulphur trioxide can be avoided. On the basis of our experience and expertise in handling hazardous chemicals and handling of the waste generated we can carry out sulphonation at our works and can deliver the product safely to the customers.

By custom manufacturing at our factory, customer can avoid:

- ✓ Transport of hazardous chemicals
- ✓ Handling of hazardous chemicals
- ✓ Effluent generated in the process.

Responsible Care[®]
OUR COMMITMENT TO SUSTAINABILITY

The Dharamsi Morarji
Chemical Company
Limited

- **Responsible Care** is a global, voluntary initiative developed autonomously by the chemical industry for the chemical industry.
- It stands for the chemical industry's desire to improve health, safety, and environmental performance.
- The signatory chemical companies agree to commit themselves to improve their performances in the fields of environmental protection, occupational safety and health protection, plant safety, product stewardship and logistics
- We have been granted permission by Indian Chemical Council to use the Responsible Care Logo w.e.f August – 2016

Indian Chemical Council Award For EFFICIENT WASTE MANAGEMENT

The Dharamsi Morarji
Chemical Company
Limited

We have been awarded “Certificate of Merit for Efficient Waste Management” by Indian Chemical Council for the year 2014-15

- We were able to achieve this award for :
 1. Reduction of waste generation from processes
 2. Process improvement/upgradation of process into eco-friendly ones to convert waste into value added products
 3. Reduction in solid waste generation from effluent treatment plant
